

# Game Sound, Certificate of Proficiency

Visit the Digital Media Department page (<https://www.uvu.edu/digitalmedia/>) for more information on the program and access to advising.

## Program Description

The Game Sound, Certificate of Proficiency is a mid-level certificate intended for students who want to build on their previous knowledge of audio and expand in the direction of video game sound. Students will learn the basic skills necessary to design sound for games, implement sounds into the game engine, design audio systems within audio middleware and work on a game development team. It is expected that students already be familiar with basic audio tools such as Digital Audio Workstation (DAW), compressors, equalizer's (EQ), time-based effects, etc.
