Program Learning Outcomes

1. Interpret dialogues between Spanish-speaking patients and English-speaking healthcare providers in an accurate and effective way.
2. Apply ethically motivated strategies for dialogue interpreting, including facilitating a communicative event between participants of different cultures and expectations.
3. Correctly use advanced medical terminology in English and Spanish.
4. Assess how government regulations or other policies impact limited-English proficient persons' interactions with the healthcare system.
5. Build personal training/education routines to maintain interpreting skills throughout career.
