

Clinical Mental Health Counseling, M.S.

The Master in Clinical Mental Health Counseling (CMHC) prepares individuals to provide counseling services, mental health evaluations, and referrals to ameliorate and prevent cognitive and emotional crises as well as personal and interpersonal problems. Instruction will include coursework on individual and group counseling, psychotherapy theory and practice, human development, psychological assessment, psychopathology and diagnostics, professional standards and ethics as well as the governing laws and regulations of the field. Successful graduates will be eligible for employment and licensure as a Clinical Mental Health Counselor in the state of Utah.

Matriculation Requirements

Bachelor's degree from a regionally accredited institution of higher education (with official transcripts from all institutions attended). The degree can be in any discipline, provided student meets the expected GPA and prerequisite coursework.

GPA Requirements

The minimum cumulative GPA is 3.4 on a 4.0 scale.

Prerequisite Coursework:

- General or Introductory Psychology
- Abnormal Psychology
- Intro to Counseling (or equivalent)
- Research Methods
- Statistics

Complete the UVU Graduate School Application.

Personal Interview

All candidates will be screened and those deemed to meet or exceed basic application requirements may be invited for an interview. This interview does not guarantee acceptance into the program as students will compete with all other applicants for matriculation into a cohort.

Three total letters of recommendation from academic and professional sources.

Program Requirements

Program Learning Outcomes

1. Individual Therapy; Students will engage in critical thinking and demonstrate a heightened self-awareness in the counseling role. Students will also demonstrate skills necessary to be an effective counselor while applying a theoretical approach.
2. Ethical Practice; Students will understand counselor professional identity and demonstrate skill in applying ethical and legal considerations in professional counseling.
3. Clinical Assessment; Treatment Planning- Students will demonstrate the knowledge and ability to diagnose and design treatment plans for a broad range of mental health issues. Students will also be able to select and interpret assessment measures (i.e., academic/educational, career, personality, diagnostic, and developmental)

4. Professional Development; Students will understand counselor professional identity and demonstrate skill in applying ethical and legal considerations in professional counseling.
5. Research and Theory; Students will be able to critically evaluate research in a manner that informs counseling practice.
6. Group Therapy; Students will demonstrate knowledge and skills to facilitate psychoeducational and process groups.
7. Diversity in Counseling; Students will be able to demonstrate the awareness, knowledge, and skills to counsel clients from diverse backgrounds.
8. Career Counseling; Students will have knowledge of career assessment and planning principles and theories.
9. Prevention; Students will demonstrate knowledge of how to design and deliver mental illness prevention programs.
10. Program Evaluation; Students will apply program evaluation techniques to individual, group, and couple's counseling settings.
